DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 1-7 have been considered but are moot in view of the new ground(s) of rejection.

The objection to the specification has been overcome by amendment

Applicant argues, "since examination is used to determine patentability of the application... "material to examination " is sufficient". While the office determines patentability through examination the burden of patentability for the applicant is broader than the examination process. Further, the rule explicitly requires the applicant to disclose information material to patentability, not just examination. Therefore, the objection to the oath is maintained.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 7 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 7 includes the limitation "according to claim 3". However, claim 3 has been cancelled and therefore claim 7 is indefinite.

Application/Control Number: 10/539,198

Art Unit: 3745

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Lorenzen (1,939,357). Lorenzen discloses a component for a gas turbine, as well as the method of manufacturing the component, comprising; a main body (a) and removable inserts (b) arranged in the inlet and outlet zones of the blade that are made of a material more resilient than that of the main body (Lorenzen page 1, lines 12-32). The removable inserts (b) are configured to be fixed to the main body, are capable of withstanding the stresses to which they are subjected and are removed from the main body when they become damaged while raining the main body that is still fit for operation. Further, the inserts are modular due to their removablity.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan Wiehe whose telephone number is (571)272-8648. The examiner can normally be reached on Mon.-Thur. and alternate Fri., 7am-4:30pm EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward Look can be reached on (571)272-4820. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
